WHAT ARE THE MAIN ADVANTAGES OF BUILDING LODGES AND CAMPS FROM PREFABRICATED MODERN YURTS?

1. High speed and relatively low cost of construction. Each unit you can build maximum in three days.
2. Replacing yurt at any time in different place if needed.
3. Making first results in profit after 4 months after launch of the project.
4. Big variety of layout and design inside and outside.
5. An exceptional and atypical decision in comparison with other touristic objects.
6. The possibility of assembling independently, without hiring professional builders.

Modern YURTA

Technical capability of creating any interior you want. You can make an entire house which will include guest room, sleeping room, kitchen and bathroom.

Also here you will have easy process for conduction of all of important communications: water, electricity and sewage.
